Off to read the whole book!By UltraMeitalThis short novella is the first 8 chapters of the whole novel. I think it's an interesting idea! When downloading it I didn't it's just that - a part of the book itself. But that's exactly what it is. It brings us the first encounter of Will and Kit. It's engaging, it's HOT and it's almost impossible to put down once you start.The story is told from both their POVs which is more than great considering Kit is British and Will is American and each with his own dialect and different kind of thinking and mostly, each from a totally different side. Kit is payed to protect the man Will has sworn to kill. Yet things are far more complicated for both men - appearances can be more than deceiving ;)Can't wait to get the WHOLE story.Tags: Romantic Suspense (MM)More @ Ultra Meital Reviews.1 of 1 people found the following review helpful. Gimme more!! What a starter!!By DonnaCEnemies with Benefits (Enemies with Benefits 0.5) by Annika Martin and Joanna Chambers4.5 stars!!!!ldquo;Sometimes you have to disengage your personal conscience in order to achieve the greater good.rdquo;I never thought I would quote Shakespeare while reviewing this novella but ldquo;though she be but little, she is fiercerdquo; sprung to mind as I turned the last page. OMG, seventy pages chock full of stuff and I mean the kind of stuff that makes you salivate for the main course. This is the starter (AND IT IS FREE!!) and if the starter is this good then BRING ME MY MAIN!!!! Full of meat and two veg, pun well and truly intended.I want to talk about the twist, but I REALLY cannot talk about the twist, you need to experience that baby all for yourself, but OMG THAT TWIST!!! I cannot say how desperate I am to read Enemies Like You and we only have to wait until May 15th.Will is a freelance assassin who works with the CIA. Willrsquo;s main reason for taking on the job is because the target is Sergei Polzin, the Russian who was ultimately responsible for the death of his comrades and he wonrsquo;t sleep until he has avenged their deaths.ldquo;Irsquo;m a loner. Always have been, always will be. I like my sex like I like my grenades: simple, fast, and furious. One-time use.rdquo;Kit is Polzinsquo;s bodyguard but this is a means to an end, because Polzin has something that Kit wants and the only reason Polzin has not been killed at his own hands is because Kit still doesnrsquo;t have it. Kit needs Polzin alive but when he gets what he wants, he will be the one the kill him. No-one else.So, we have Will versus Kit, or is it Kit vs Willhellip;who knows how this one will pan out, but all I can say is that this was bloody HOT!!! I mean HOT of the SCORCHING variety, if this is what happens with one meet I can see myself needing a fan and the kindle needing the freezer.ldquo;I prefer you on your knees.rdquo;Enemies to lovers is one of my favourite tropes and if this goes the way I think it is going to go then Irsquo;m sold, gimme a front row seat and shut the door. Me and my kindle have a date. Bring on the 15th May!!!1 of 1 people found the following review helpful. Hot, Sexy, Gritty m/m Romance prologueBy Jen TwimomCIA operative

Will is set to kill his enemy, Polzin. It's a personal kill since Polzin is responsible for the deaths of so many of Will's brothers-in-arms. Kit has been deep undercover for two years, forced to protect Polzin as his bodyguard. Kit must keep the dirty Russian alive until he completes his own, secret objective. Now the pair face off in a deadly match that neither can walk away from. Wow! What an exciting start to the new Enemies with Benefits series by Annika Martin and Joanna Chambers! While short in length, the story is packed with dangerous action and extremely sexy times. Both Will and Kit are utterly fascinated with and inexplicably captivated by the other, all the while understanding how dangerous their liaisons truly are. I love the grit of their passion; the unquestioning desire to take and be taken. Will and Kit's story is far from over... there is no HEA or HFN, there is only a beginning and the promise of something much, much more. I am hooked on Will and Kit after this quick novella. It's dark and rough around the edges, and I can't wait to dive into their first full-length title. My Rating: B+ Liked It A Lot

They're dangerous men. Absolute enemies. And totally hot for each other. Two years ago, the men in Will's unit were killed in an ambush because they were betrayed. Now Will has a chance to go after the corrupt billionaire who sold them out. One problem: the billionaire's bodyguard. Nobody knows what he looks like; they only know him by the trail of bodies he leaves behind. Will their passion destroy them both? Kit's a hardened assassin who'll do what it takes to protect his boss. But when Will moves on the billionaire at an elite party, things with Will and Kit take an unexpected steamy twist. Now Kit has to convince Will to walk away--from his quest for justice, and from the red-hot passion that's spinning out of control. This is the prologue novella for ENEMIES LIKE YOU, out May 15th, 2017

"Oh man, this was hot. AND it surprised me. I didn't see the twist coming at all." ~Goodreads reviewer "Holy S*t that was smoking hot. Spies wearing mantles and big, buff guys submitting so beautifully...I couldn't breathe during some of it for the tension." ~Goodreads reviewer "This was short, fun and the absolute sexiest thing I've read in a while." ~Goodreads reviewer "Goddamn. I hope the rest of the book can live up to this luscious prologue." ~Goodreads reviewer
